CONSUMER GOODS AGENT

Build steps

STEP 1

Load the demo data

Set up the sales, stock and inventory tables in Dataverse with demo records.

STEP 2

Create the agent

Build it in Copilot Studio and describe [who uses it and the problem it solves].

STEP 3

Add the Dataverse tool

Connect [MCP Server tool or connector: confirm] so the agent can read and update records.

STEP 4

Add the Outlook connector

Connect Office 365 Outlook so the agent can email the right people.

STEP 5

Write the instructions

List the key questions on sales, stock and inventory, and require confirmation before any update.

STEP 6

Test and publish

Run the demo prompts against the demo data, then publish to [channel: confirm].
